Finsbury Green

WeTransfer

WeTransfer is Finsbury Green's online preflight, correction and artwork conversion application for designers and creatives.

- Seamlessly flight checks print-ready PDF.
- It applies Finsbury Green's ISO12647 colour management standard, flattens transparencies, removes four-colour blacks and converts RGB to CMYK, on the fly.
- Problems are identified in a report and problematic images or elements are visible in a separate layer.
- WeTransfer can be found at www.finsbury.com.au.
- Saves time, money and resources by providing a sustainable solution.
- Suits broadband users or anyone currently using FTP.
- Upload data limit of 1GB.
- Processes jobs faster, safer and smoother.
